

Creative Arts Workshops

Aims and objectives:

- To create a platform for students to express themselves in new creative ways.
- Explore a wide range issues and topics using the creative arts as a learning tool.
- Document and present their experiences.
- Encourage new approaches to learning through multi-sensory workshops that have a strong emphasis on literacy, ICT and personal development.
- Equip students with new tools and technique to develop personally and professionally.
- Identify and encourage the development, skills and talents within individuals.
- Create a positive and healthy environment where students can explore and express their creativity using the creative arts.
- Encourage diversity, uniqueness & healthy and effective communication
- Develop new ways of thinking and documenting ideas.
- Look at positive ways to increase self-esteem, confidence and self-awareness.
- Provide a platform for people to develop and utilise their skills in order to reach their full potential.
- Facilitate stimulating, interactive, engaging and enjoyable workshops that make learning fulfilling and fun.
- Promote equality of opportunity and inclusion.
- Incorporate the creative arts into learning, training and development.
- Produce excellent quality and relevant resources, materials that can be used continuously in all aspects of life.
- Reflect and represent the diverse experiences, interests, skills, abilities and talents of all students.
- Support and guide students in fulfilling their goals and ambitions.
- Work with students to produce portfolio's of work.
- Provide information relating to career, further education opportunities and training.
